Subject: Nutrient Work Group Meeting Date and Time Change

The Nutrient Work Group meeting on February 27th is being rescheduled for Monday, March 20th. The subcommittee has been actively working to correct issues found in the 2016 Tetra Tech report and, in turn, to identify Highest Attainable Conditions. The subcommittee needs a little more time to complete its work. The subcommittee expects to complete its work and recommendations by the 1st week of March, after which the findings can be reported back to the main Nutrient Work Group.
